REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest prior art, does not teach or suggest a formulation comprising calcitonin and citric acid or a salt thereof for intranasal administration in a concentration-dependent manner with enhanced bioavailability and shelf stability, wherein the concentration of citric acid or a salt thereof is the critical element. Applicants have discovered that the narrow concentration range of 10-25 mM of citric acid and/or a salt thereof gives the formulation both of its enhanced bioavailability and shelf stability. The term "citric acid **and/or** salt thereof" used in the specification is interpreted by the Office to support the term "combined concentration" used in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MINA HAGHIGHATIAN whose telephone number is (571)272-0615. The examiner can normally be reached on core office hours.
